This fund will support the education and research projects for the Cardiac Catheterization Lab within the Division of Cardiology including new equipment, seed money for pilot projects, new technologies and educational tools as well as funds for meetings and symposiums.	142
Cardiology Education Fund	Donations to this fund will be used for education activities within the Cardiology Department.	143
Cardiothoracic Surgical Division Fund	Donations to this fund will help support Henry Ford's Cardiothoracic Surgical Division	141
Catherine M. Prince Cancer Relief Fund	through educational program and funding for special research projects. This program was established by a cancer patient who wanted to help patients being treated at the Henry Ford Cancer - Detroit with limited resources. The program assists cancer patients who lack the economic resources to cover their medication, necessary treatment supplies or transportation for appointments.	140
Center for Autism and Developmental Disabilities (CADD): Racing For Kids	This fund supports Henry Ford Health Medical Center - Grosse Pointe initiatives toward the health care needs of children in Pediatrics and Autism research. The Henry Ford Center for Autism and Developmental Disabilities (CADD) is a world-class center committed to improving the lives of children and youth with special health care needs by providing a comprehensive diagnostic evaluation, evidence-based and accessible ABA therapy services, and a medical home standard of primary care.	145
Center for Cutaneous Oncology	This fund will advance the treatment, diagnosis and care of patients with skin cancer as well as support research initiatives, with the ultimate goal of finding a cure to skin cancer. Funds will be used for equipment purchases, research, travel, hiring personnel and other activities that enhance and advance the Center for Cutaneous Oncology.	192

Center for Health Services Research	The Center for Health Services Research conducts studies on new ways to improve how health care functions. It studies innovative ways to improve quality, control cost, and improve patient outcomes. Center investigators work collaboratively with doctors and nurses in studies on asthma, diabetes, and cancer care, as well as on racial/ethnic disparities in care for a variety of clinical conditions.	150
Center for Integrative Medicine	The Center provides a healing environment in a space of total relaxation and comfort. It is a state-of-the-art facility where highly trained practitioners provide therapies drawn from the best of the world's healing traditions to help you achieve overall weliness and optimal health. The Center's treatments include: neuromuscular therapy, massage therapy, acupuncture, and herbal and nutritional counseling.	160
Center for Medical Imaging Fund at Henry Ford Wyandotte Hospital	This fund supports medical imaging technology and programs for Henry Ford Wyandotte Hospital and Henry Ford Medical Center - Brownstown Township	382
Center for Structural Heart Disease Fund	This fund supports the specific work of the Center for Structural Heart Disease. These gifts	182
Center for Women's and Children's Health Fund (Safe Sleep)	support research, equipment procurement, and other needs. Funds support the birthing center at Henry Ford Wyandotte Hospital (HFWH), as well as Women's Services and pediatric services at HFWH and CHS. Currently the CWCH's main project is providing safe sleep sacks to all babies born at HFWH and Henry Ford Hospital to help eliminate the preventable deaths associated with SUID and SIDS (Sudden Unexpected Infant Deaths and Sudden Infant Death Syndrome).	374
Charles Townley, M.D. Endowed Resident Research Award	The Charles Townley, M.D. Endowed Resident Research Award will be presented annually to the resident demonstrating the most original research publication in a peer-reviewed journal. The award is open to all orthopedic residents in Michigan, both allopathic and osteopathic. Dr. Townley demonstrated tireless ingenuity as a resident at Henry Ford Hospital, and this award will uphold his spirit of imagination.	485
Clara Ford Nursing Excellence Program Fund	This fund will support the needs of Clara Ford Nursing Excellence Program which may include, but are not limited to, programs designed to increase longevity of nursing careers, caring for and nuturing existing nursing staff, nurse recruiting, nurse education, collaborition between nursing partners, as well as administrative and salary costs associated with managing this program. The Chief Nursing Officer at HFH, currently Eric Wallis, RN, Shall be responsible for carrying out the intended purpose of the gift.	463
CLEAR Conversations Project	The Clear Communications Project supports the implementation of the connect-listen- empathize-align-respect (CLEAR) Conversations model to continually improve physician communications with patients and families.	185
Colon and Rectal Surgery Research and Academid Fund	This fund shall be used in support of research in the treatment of colon and rectal diseases, along with the costs for any resources needed to successfully perform this research including but not limited to, equipment, recruitment and retention of staff, physical space, and optimization of education. The Chair Division of Colon and Rectal Surgery at Henry Ford Health shall be responsible for carrying out the intended purpose of the gift.	147
Community Care Services Each Patient First Fund	This fund provides financial assistance to current Henry Ford Home Health Care patients who demonstrate financial need and are sponsored by a Henry Ford Home Health Care employee. The focus of the program is to improve the quality of patients' lives by helping to pay for medications, supplies and medical-related products that are not currently being provided for or funded by other sources.	215
Community Health (Yes Ma'am Fund)	The Wyandotte Yes Ma'am fund provides mammogram screenings for under and uninsured patients. It also provides assistance for any follow-up care that may be needed.	650
D. Emerick and Eve Szilagyi Chair in Vascular Surgery	This fund was established to support the legacy of this outstanding clinician and scientist. Funds support the research and educational endeavors of the Division of Vascular Surgery at Henry Ford Hospital.	611
David DiChiera Music Therapy Program	This fund supports a music therapy program in honor of David DiChiera, an American composer and founding general director of Michigan Opera Theatre, and is specifically for patients battling cancer.	291
Department of Emergency Medicine Chairman's Education and Research Gift Fund	This fund is for the development of research and education and will be used to further the program in the Department of Emergency Medicine.	219
Department of Family Practice Endowment	This fund will support the education and research projects for the department of Family Practice, including new equipment, seed money for pilot projects, new technology and educational tools.	250
Destination Grand - Henry Ford Hospital Detroit Campus Transformation	This fund supports all aspects of the Henry Ford Hospital campus expansion project including but not limited to the construction of a brand-new, state-of-the-art academic hospital facility with patient tower.	575

Detroit Institute of Ophthalmology Friends of Vision Fund	Donations to this fund supplement monies raised by our volunteer arm, the Friends of Vision.	194
Detroit Institute of Ophthalmology Research Fund	This fund will support research development.	197
Detroit Institute of Ophthalmology Support Group Fund	This fund covers expenses related to running support groups at the Detroit Institute of Ophthalmology (excluding transportation expenses).	195
Diagnostic Radiology (Eyler Fund)	This fund will support the education and research projects for the department of Diagnostic Radiology, including new equipment, seed money for pilot projects, new technology and educational tools.	200
Dialysis Patient Nutrition Assistance Fund	This fund provides supplements at cost or free of charge to Greenfield Dialysis patients who are financially unable to purchase them otherwise.	209
Donald M. Ditmars, MD, Plastic Surgery Research Fund	This fund will support the education and research projects for the division of plastic surgery, including new equipment, seed money for pilot projects, new technology and educational tools.	519
Downriver Special Projects Fund	This fund was established for patients who need urgent help. It might be a prescription for an elderly patient's needs. Or it might be a piece of life-saving equipment for a young mother. Hundreds of low-income patients, including the elderly, young adults and underinsured receive prescriptions, equipment and other medical necessities through this program which they would otherwise not be able to afford.	580
Dr. Claudio Schuger Research Fund	To support and advance research and quality in the field of Cardiac Electrophysiology at Henry Ford Hospital, enabling Cardiac Electrophysiology fellows and staff to provide world class care to their patients.	146
Dr. Colleen Grace Cancer Fund	The purpose of this fund is to honor the memory of Dr. Colleen Grace, late daughter of William and Sue Conway, and to fund general purpose cancer programs, to include but not limited to, research, education, equipment or other capital needs.	213
Edith and Benson Ford Heart & Vascular Institute Fund	This fund supports the greatest needs of the Edith and Benson Ford Heart & Vascular Institute at Henry Ford Health.	149
Emergency Department - Sterling Heights Medical Center	This fund would help support the education and research projects for the department, including new equipment, seed money for pilot projects, new technology and educational tools.	221
	tools.	

Epilepsy Program Fund	This fund will support the education and research projects specific to epilepsy, including new equipment, seed money for pilot projects, new technology and educational tools. In addition, this fund assists patients with epilepsy who lack the economic resources to cover their medication, necessary treatment supplies or transportation for appointments.	233
Eye Care Service Ralph Conger Fund	This fund supports the education and research projects for the department of Visual Rehab/Low Vision, including new equipment, seed money for pilot projects, new technology and educational tools.	245
Eye Care Services Capital Fund	Supports the department in acquiring new equipment as well as upgrading current equipment.	241
Eye Care Services McCole Chair	This fund will support the education and research projects for the department of Eye Care Services, including new equipment, seed money for pilot projects, new technology and educational tools. Funds support educational and research activities in the Department of Ophthalmology and Eye Care Services.	244
Fairlane General Fund	Henry Ford Health Medical Center - Fairlane currently has two main projects in need of funding: the expansion and renovation of the ambulatory surgery area, and the expansion and renovation of the emergency department. Both of these areas are very important to all of the patients in the Southern region.	350
Fairlane Medical Center Emergency Department	This fund will support Henry Ford Health Medical Center - Fairlane's Emergency Department by providing funding new equipment, seed money for pilot projects, new technology and educational tools, and a variety of other activities that are vital to the productivity of the department.	348
Female Pelvic Floor Medicine and Reconstructive Surgery Division Research and Education Fund	This fund will be used to support research and education activities related to female pelvic floor medicine and reconstructive surgery.	512
Francee and Benson Ford, Jr. Breast Care and Wellness Center at HFWB	This fund will support the needs of the breast care and wellness center located at Henry Ford West Bloomfield Hospital.	361
Fund for Gynecology Cancer	This fund will support the education and research projects for the department of Obstetrics and Gynecology, including new equipment, seed money for pilot projects, new technology and educational tools.	640
Fund for Kingswood	This fund will support the education and research projects for Henry Ford Kingswood Hospital, including new equipment, seed money for pilot projects, new technology and educational tools.	254
Game On Cancer Patient & Research Fund	Game On Cancer (GOC) provides assistance to patients that alleviates barriers to cancer care and provides critical cancer research funding and supportive oncology programs. 100% of funds raised support this mission. The patient assistance program is frequently used to assist with groceries, housing, utilities, transportation, medication, medicat supplies, other essential non-medical items not covered by insurance. Often times patients are forced to make the choice between cancer treatments or buying groceries, not having a ride to chemotherapy appointments and/or not being able to pay rent or mortgage. Game On Cancer helps to relieve stress and bridge financial gaps so that patients can focus on their cancer treatment.	265
Gastroenterology Research Fund	This fund will support the education and research projects for the department of Gastroenterology, including new equipment, seed money for pilot projects, new technology and educational tools.	270
Gaylord D. Alexander, M.D. Endowed Anesthesiology Resident Education Fund	The Gaylord D. Alexander, M.D. Endowed Anesthesiology Resident Education Fund is established by Gaylord D. Alexander, M.D. exclusively to enhance the education and training of anesthesia residents by providing scholarships for residents to travel to a resource-poor area of the globe to provide care and receive training.	275
Gene Therapy Cancer Research	This fund will support the research projects for the department of Gene Therapy Cancer, including new equipment, seed money for pilot projects, new technology and educational tools.	278
General Internal Medicine Fund	This fund will support the education and research projects for the department of General Internal Medicine, including new equipment, seed money for pilot projects, new technology and educational tools.	279

Ghaus Malik Lectureship and Education Fund	The Ghaus Malik Lectureship and Education Fund supports a neurosurgery lecturship and neurosurgery education	439
Global Health Initiative Strategic Fund	heurosurgery education Henry Ford Health makes a difference around the world. The Global Health Initiative partners with 26 departments and divisions to share our expertise and build capacity with partners abroad. One of the most meaningful GHI activities is hosting trainees from developing countries and sending HFH experts abroad through a medical education exchange. Donations through Employee Giving to GHI go directly to: \$250 (*\$10/pay) hosts one global health lecture at Henry Ford Health or abroad; \$1,000 (*\$40/pay) covers roundtrip airfare for 1 international trainee or 1 Henry Ford Health expert; \$2,500 (*\$100/pay) covers the full cost of the exchange experience for 1 international trainee or 1 Henry Ford Health expert abroad.	283
Goldman Therapy Dog Program	The goal of this program is to present healthy, active and energetic facility dogs who are handled by accountable, enthusiastic, and sensitive handlers. With additional dogs, we can meet more patient requests. Creating a handler team will allow the dogs to perform at their best, will increase communication with staff, provide routine schedules, and ensure consistent dog training occurs.	105
Head and Neck Cancer Program	These funds will be used to support the enhancement and expansion of the Head and Neck Cancer Program within the department of Otolaryngology. The needs of this program include patient and staff education as well as funds for research, equipment and capital needs.	304

Healing Arts Program	This program uses art to promote health and healing by enhancing the physical environment for everyone using HFH hospitals and medical centers. Through the addition of artwork in care delivery rooms and waiting areas, the programs looks to create an atmosphere that is calming and nurturing for patients as well as staff. Donations to this fund will support the purchase, installation and maintenance of artwork throughout the HFH.	290
Heart Failure Rehab Project	This fund will support the education and research projects for Heart Failure Rehab, including new equipment, seed money for pilot projects, new technology and educational tools.	302
Heart Failure Research Project	This fund will support the education and research projects for Heart Failure, including new equipment, seed money for pilot projects, new technology and educational tools.	301
Henry Ford at Home Development Fund	This fund is designed to support innovation and advancement of in-home services, products and technologies. Funds are dedicated to specialized education of staff, acceleration of patient care process improvement and testing of new in-home technology.	329
Henry Ford Cancer - Brownstown Township Endowment Fund	This fund is endowed to provide ongoing support of oncology research through Henry Ford Cancer - Detroit. As an endowment, only the interest made off the corpus investment will be spent, allowing research to be supported in perpetuity.	395
Henry Ford Cancer - Detroit	This fund supports the education and research projects for the Henry Ford Cancer - Detroit, including new equipment, seed money for pilot projects, new technology and educational tools.	393
Henry Ford Cancer - Detroit Capital Building Fund	Supports the capital building of the expansion of the current Henry Ford Cancer - Detroit.	389
Henry Ford Cancer - Detroit Patient Needs Fund	The Patient Medical Needs Fund was established for patients who need urgent help. It might be a prescription for an elderly patient's needs. Or it might be a piece of life-saving equipment for a young mother. Hundreds of low-income patients, including the elderly, young adults and underinsured receive prescriptions, equipment and other medical necessities through this program which they would otherwise not be able to afford.	392
Henry Ford Cancer - Detroit Supportive Oncology Services Comfort Bites Fund	This fund will be used for a pilot program called Comfort Bites, offering Henry Ford Hospital chemotherapy patients a variety of healthy and nutritious snack options. The goal is to purchase Henry Ford Cancer - Detroit dietician-approved snack choices and utilize trained volunteers to give chemotherapy patients the option to choose a healthy snack increasing satisfactions with their care and overall well-being.	266
Henry Ford Education Research and Leadership Development (HERALD) Anesthesiology	The Henry Ford Education Research and Leadership Development (HERALD) fund donations support training and mentoring the next generation of educational leaders who advance the science of learning through the integration of modern adult learning theory and cutting-edge technologies to develop rigorous metrics and measuring progression of knowledge, skills, and abilities (KSA). This approach will not only improve education, but also outcomes for our patients. The key modalities employed are hand motion tracking and virtual/augmented reality systems.	121
Henry Ford Health Green Fund for Environmental Sustainability	This fund will support the environmental sustainability efforts such as expanding our recycling program, reducing waste, installing water bottle filling stations, making our facilities more bike and pedestrian friendly, and reducing overall impact on the environment with a goal of improving the health of employees, patient and communities.	556
Henry Ford Health Patient Medical Needs Fund	This fund will be used to support Henry Ford Health patients that need assistance with the costs associated with medical care. This may include, but is not limited to, costs associated with prescription medications, costs related to transportation to obtain medical services, medical equipment expenses, and other costs associated with medical services.	101
Henry Ford Health Medical Center - Grosse Pointe Emergency Department	This fund would help support the education and research projects for the department, including new equipment, seed money for pilot projects, new technology and educational tools.	322
Henry Ford Health Medical Center - Grosse Pointe Special Needs Fund	Donations to this fund will cover the cost of new equipment, programs unique to the center and facility upgrades.	328
Henry Ford Health Medical Center - Grosse Pointe Women's Services Fund	Henry Ford board-certified radiologists and a specialized staff of technologists provide film- screen and digital mammography, 4-dimensional ultrasound, bone densitometry, and minimally invasive breast biopsy in a female-friendly, attractive and comforting environment. A Registered Nurse Breast Care Coordinator gives women guidance and support when further testing or surgery is needed. Mammopads are provided to patients free of additional charge to help minimize compression discomfort during mammograms.	325
Henry Ford Hospice	Hospice is a unique philosophy of care designed to meet the needs of patients who are in the final stages of terminal illness. Home care supported and guided by a multidisciplinary team of professionals is at the heart of the hospice philosophy. The goal is to manage terminal disease in a way that makes it possible for dying patients to remain at home in the care of their families for as long as possible.	380
Henry Ford Hospital - Tom Groth Patient Medical Needs Fund	This is an amazing opportunity to help people who desperately need help but can't afford the cost of health care. At Henry Ford Health, the Patient Medical Needs Fund was established for patients who need urgent help. It might be a prescription for an elderly patient's needs. Or it might be a piece of life-saving equipment for a young mother. Hundreds of low-income patients, including the elderly, young adults and underinsured receive prescriptions, equipment and other medical necessities through this program which they would otherwise not be able to afford.	340
Henry Ford Hospital Building Fund	Over the next ten years we need to raise funds to pay for major upgrades to our campus and for important programs unique to the hospital. A gift to this building fund will help renovate this historic facility in ways that will touch hundreds of thousands of lives for decades.	330
Henry Ford Hospital Emergency Department Renovation Fund	The Department of Emergency Medicine is the largest gateway to Henry Ford Hospital. The Department has a distinguished history of both basic science and clinical research. This Level I trauma center will embark on a major renovation project to expand the space and services to better serve the city of Detroit and all Southeast Michigan.	220
Henry Ford Hospital Memorial Garden	The Memorial Garden offers a quiet place near the hospital for parents and family experiencing a loss of a loved one to express love and grieve in natural, peaceful surroundings.	343
Henry Ford Hospital Research Program	The Research General fund supports research initiatives, including new equipment, seed money for pilot projects, new technology, educational activities and infrastructure improvements (i.e., renovations). The research studies fall into three main categories: 1) basic science studies in important areas of biomedical research; 2) clinical trials of new treatments and devices; and 3) health and population studies related to the prevention, diagnosis, treatment and management of chronic and acute conditions.	540
Henry Ford Jackson - Area of Greatest Need	Your gift will be used in the way that is most meaningful and effective in meeting the ever- changing needs of Henry Ford Jacskon. Your donation supports the Mission to lead our community to better health and well-being at every stage of life.	710

Neurology Education and Research Fund	This fund would help support the education and research projects for ALS, Alzheimer's, epilepsy, multiple sclerosis, Parkinson's, and stroke in the department of Neurology, including new equipment, seed money for pilot projects, new technology and educational tools.	430
Neuropathy Center Fund	This center develops therapy for the treatment of neurological effects of diabetes and cancer treatments with an emphasis on the treatment of peripheral neuropathy. Peripheral neuropathy is a disease which results in the loss of motor function and sensitivity, which affects millions of people in the US.	435

This center develops novel restorative therapies for the treatment of stroke, neural injury, and neurodegenerative diseases, such as multiple sclerosis and dementia. Nearly all people will develop a neurological disease during their lifetimes. The highly innovative and effective approach of this center is that the focus of the development is on ways to remodel and rewire the central nervous system after an injury or onset of disease. This center is developing the means to stimulate the body's intrinsic restorative processes to effectively treat neurological disease. Neurosciences Institute Fund This fund supports programs and projects for the Neurosciences Institute. The Pediatrics Research and Education Fund will accept donations which will provide Pediatrics Research and Education Fund funding for research and education programs and projects within the Department of Pediatrics at Henry Ford Health System.	
Depression is a common and serious illness, yet it also one of the most misunderstood. Fortunately, Henry Ford's Department of Psychiatry has developed an innovative and highly successful approach to "perfecting" depression care which has received numerous awards and made a difference to thousands of patients. Supporting this fund will ensure these programs continue.	

Perfect Psychiatric Care	In 2001, Behavioral Health Services invested in Perfect Depression Care; an initiative that created the aspirational goal of zero suicide. This goal and the clinical guidelines that supported it is now an international phenomenon; Henry Ford is in the forefront of suicide prevention across the globe. This focus on perfection continues not only in the area of continued suicide prevention strategies but in all facets of care for the prevention and treatment of mood disorders, anxiety disorders, psychosis, and other psychiatric disorders. Innovations in models of care, novel therapies, and digital technologies are at the forefront of assuring access to mental health care as well as attaining remission of symptoms for our patients.	131
Personal Philanthropy Account	With a preferred pledge of \$1,915 to this account, you can designate your donation to this account and allow your donation to accrue over the course of the year in a holding account so that you can purchase tickets to Henry Ford Health special events, buy raffle tickets or auction items at events; or designate funds to programs or projects, make memorial or tribute gifts, etc. This is an annual account; all funds must be donated and used in the same calendar year. For more detailed information, please contact the Office of Philanthropy at 313-876-1031.	477
Philip C. Hessburg, M.D. Endowed Lectureship: Progress in the Eradication of Blindness	The Philip C. Hessburg, M.D., Detroit Institute of Ophthalmology Endowed Lectureship shall be used to continue research (as part of the research arm of the Department of Ophthalmology) and/or DIO education.	516
POST Project: Maternal Mental Health Development Fund	This fund recognizes the negative effects that depression, anxiety, trauma and extreme stress can have on pregnant women and young families. This fund supports the development and sustainability of initiatives that support childbearing families, provide professional education and maternal mental health advocacy.	639
Primary Health Innovation Fund	This fund was created to promote innovation and equity in the management of our patients with an emphasis on chronic conditions and the advancement of self-care strategies for at-risk populations. The purpose is to advance innovations in care and reduce the disparities that currently exist by innovatin the care model, engaging patients in the care process and advancing the availability of relevant and usable self-management tools. This will help to preserve and enhance personal health with the ultimate goal of improved clinical outcomes, reduced social barriers, and better quality of life.	252
Prostate Cancer Fund	This fund will promote the vision for a superior patient experience with rapid prostate cancer diagnosis and treatment and other such advancements in Urology. The fund will support a wide range of expenditures including, but not limited to: research, education, equipment, and patient care needs.	621
Providence - Believe in Miracles	Support for outpatient meds/nutritional supplements for those in need. Voucher system—Social Worker determines eligibility. 	The purpose of this fund is support for educational and recognition activities for nurses at Providence Southfield. This fund was established to support Nurses Week and other	
e	educational and recognition activities for nurses at HF Providence Southfield Hospital.	858
	Provide for the needs of the Providence Southfield Chapel & Pastoral care Created by the Philosophy of service Christian sub-committee as an additional way for	859
	associates to participate in the many community projects sponsored by Providence	
	Southfield Hospital. This fund will support the education and research projects for Public Health Sciences,	860
	including new equipment, seed money for pilot projects and educational tools.	132
	The Pulmonary and Critical Care Education and Research Fund is used to support new	
	research activities that are lacking some other source of funding and to provide educational opportunities for fellows and staff in support of the academic mission of the	520
D	Division.	
	This fund will support the needs of the Bower Library within the department of Pulmonary	521
	and Critical Care Medicine. Fund will be used to support pulmonary research.	523
R	RAD-AID is an international organization at the forefront of addressing these needs by	
	developing sustainable imaging and radiology education around the globe. The funding provided will be used to help acquire necessary equipment, support resident travel and	
	mprove the lives of patients around the globe. Since 2013 we have supported RAD-AID by	528
	remotely reading radiology studies from Haiti, developing an ultrasonography curriculum	
	for international users, traveling to Nicaragua to provide medical imaging services and training local users.	
Т	This fund will support the education and research projects for the department of Radiation	
	Oncology, including new equipment, seed money for pilot projects, new technology and educational tools.	530
	This fund will be used to support the equipment, new technology and patient needs of the	
	Radiology Breast Imaging Centers throughout Henry Ford Health under the direction of the	531
	Chairman of the Department. Henry Ford West Bloomfield Hospital employees are very committed to one another.	
	Money raised for this fund will directly benefit Henry Ford West Bloomfield employees,

St. John - Pediatric Renovation & Expansion, Your Child, We Care Campaign	enhancements and the Pediatric Bear program. In 2017, St. John Hospital embarked on a capital campaign to expand and renovate Pediatric Services to better meet family needs and enhance the patient care experience. The entire project is dependent upon philanthropic support totaling \$17.5M. Plans to upgrade facilities at St. John Hospital will create a more welcoming environment that will help recapture pediatric patient volume. The expansion and renovation project will also include: (1) A separate Pediatric Emergency Center with its own waiting room. (2) A separate Women and Children's entrance and courtyard to better accommodate maternity patients and children needing emergency services, separating them from adult patients with other needs. (3) Renovations to create private pediatric inpatient rooms, leading to improved outcomes and allowing parents to comfortably stay overnight with their children. (4) Renovations to the Pediatric Unit to create a more efficient space to care for young patients. (5) Relocation and renovation of the Pediatric Intensive Care Unit adjacent to the inpatient Pediatric Unit.	963
St. John - Stroke	Funds restricted to support Stroke Camp, equipment for Stroke Unit, rehab gym	964
St. John - Surgical Services Renovation & Expansion	equipment, training for Stroke Unit staff, software or other IT needs. In 2017, St. John Hospital embarked on a \$60 million endeavor to expand and renovate Surgical Services, to better meet family needs and enhance the patient care experience. \$2M+ will be raised through philanthropy. This money will be combined with the capital funding provided by Ascension to complete the expansion and renovation. Opened officially on 6/27/18 as SJH Surgical & Pediatric Services Expansion Campaign. Opened fund as part of splitting campaign in December 2020 to Surgical Services Renovation & Expansion.	964 965
	To support Pediatric Services within the HF St. John Children's Hospital. Restricted to support needs that fall within Pediatric Services: 1) Education - Physician, resident and

St. John Providence Foundation - Restricted Fund	Restricted funds held for funding of projects/programs throughout St. John and Providence Foundations. Funds can be used for equipment, educational material, program enhancements, and other needs directly related to benefit patient care outcomes.	887
Stroke Program Fund	This fund supports the ongoing needs of patients in the Henry Ford Hospital Stroke program, including education and research.	583
Summer Stroke Retreat Fund	This fund supports a weekend summer camp for stroke patients so that they may receive	584
Supportive Oncology Endowment Fund	rehabilitation and respite services. The interest earned on this fund including any additional contributions later added to the fund by the donors or others, shall be used for psycho-social care for HFH oncology patients and caregivers. The fund is available to fund distress screening, support groups, survivor programs, nutrition education, meditation, acupuncture, music and art therapy.	588
Surgery Education and Research Fund	The Surgery Education and Research Fund supports innovative approaches to surgical resident education including computer based, multimedia instruction, and the use of simulators. The fund supports the development, purchase, and maintenance of the surgical education and simulation laboratory, as well as research projects which investigate the outcomes of these educational efforts.	590
The Barb and Steve Brown Henry Ford West Bloomfield Nursing Education	This fund will be set up as an endowment. Our caretakers — especially nurses — are always in need of funds for trainings, conferences, licensing and exam fees. For Professional nurses, continuing education is essential to safe and effective nursing care.	465
The Dr. Cynthia D. Ray Patient Rescue Fund	The Dr. Cynthia D. Ray Patient Rescue Fund will be used to provide supplemental support and emergency assistance to pulmonary patients who encounter financial or other barriers to receiving medical care. Funds will be disbursed under the supervision of Pulmonary Department leadership and may be used to cover patient assistance related to transportation, hotel/lodging, prescription drugs, and any other emergency needs.	534
The Mary Alice Annecharico Technology Leadership Lecture Series	In Mary Alice's honor, we have worked with HFH Development to establish The Mary Alice Annecharico Technology Leadership Lecture Series as our legacy gift. The fund aims to celebrate Mary Alice's considerable contributions and inspire others who will lead health care technology and nursing informatics in the future.	656
Therapy Dog Program - Rochester	This fund is to be used fordonations to the Pet Therapy program for Henry Ford Rochester Hospital. This fund supports therapy/ facility dogs who will visit and comfort Henry Ford Rochester Hospital patients, visitors and associates. The program's handlers are specialty trained volunteers who bring the dogs to the patient's bedside, therapy areas, common waiting areas or other patient service areas. Funds may be used to purchase food, medication, veterinary care and any other program related costs. Funds may also be used to purchase future dogs upon current therapy/ facility retirement/ death.	905
Tim Pryson Kidney Cancer Research Fund	The purpose of the fund is to support research to improve outcomes of patients with kidney cancer and to help innovate new treatments. The fund will help support education and training of future leaders in kidney cancer research and help support research projects and presentation of research at national meetings.	619
Tobacco Treatment Services General Fund	This fund is used to support Henry Ford Health's Tobacco Treatment Services program.	561
Total Joint Research Program in Orthopedics	Donations to this fund will help support research activities and projects related to bone	482
Transplant Institute	and joint in the Department of Orthopedics. The Henry Ford Transplant Institute is one of the nation's busiest and highest regarded transplant centers. Patients and their families can feel confident knowing that Henry Ford's transplant survival rates are among the best in the state, as well as significantly above the national averages.	600
Transplant Institute - Center for Living Donation	Organ donation saves lives for people in need of transplant. There is a great shortage in organ donors and number of deceased donors has been limited. The living organ donor pool offers a great potential to save more lives. This fund will help create a coordinated approach to providing excellent care and support to those who donate organs to others and thereby encourage more live organ donations	601
United Way for Southeastern Michigan (external fund; funds do not stay within HFHS)	The United Way for Southeastern Michigan address current and emerging issues in Wayne, Oakland and Macomb counties by focusing on nurturing children and youth, strengthening families. Empowering neighborhoods and communities, and promoting health and wellness through the organizations it supports.	999

United Way of Jackson County (external fund; funds do not stay within HFHS)	United Way of Jackson County is building a community rich in opportunities to eliminate poverty and allow all people to achieve financial stability and success. United Way engages in programs and partnerships that equip people to develop a pathway to lifelong economic stability-through education, through financial management skills and support systems, and by providing a safety net for those in crisis.	777
URIM and DEIJ Orthopedics Scholarship	This scholarship fund will help support travel/lodging for medical students doing sub- internships or interviews for orthopedic residency at Henry Ford who identify themselves with groups underrepresented in medicine. These efforts may include, but shall not be limited to, scholarships for students who are underrepresented in medicine to complete clinical rotations, pathway programs to provide underrepresented students with mentorship, research opportunities, tutoring, career advising and test-taking support, etc.	487
URiM and DEIJ Urology Scholarship Fund	This scholarship fund will help support travel/lodging for medical students doing subinternships or interviews for a urology residency at Henry Ford Health who identify themselves with groups underrepresented in medicine.	618
Urology Education and Research - Peabody Projects	Fund will support education and research projects for the department of Urology, including new equipment, research, technology and educational training. This fund is to be directed by Dr. James Peabody, or Dr. Peabody's designee, for the duration of Dr. Peabody's employment at Henry Ford Health. Initial spending from this fund is expected to focus on a project related to exosome research. If funds remain after Dr. Peabody is no longer employed by Henry Ford Health then the remaining funds will be directed by the Chair of the Department of Urology.	615
Urology Innovation & Equipment Fund	These funds shall initially be used to ensure HFH is able to purchase an ExactVu microultrasound system for ultrasensitive diagnosis of prostate cancer and for targeted biopsies. Once Henry Ford Health has purchased the equipment listed above, additional funds shall be used to support other efforts in the Department of Urology to implement enhanced innovations that primarily benefit patients. This may include new equipment, technology, programming, capital improvements, research and education.	617
Vascular Surgery Education and Research Fund	This fund will support the education and research projects for the department of Vascular Surgery, including new equipment, seed money for pilot projects, new technology and educational tools.	610
Vattikuti Urology Institute	Vattikuti Urology Institute The Vattikuti Urology Institute (VUI) is currently building upon its world renowned robotic surgery program. From pioneering the treatment of prostate cancer with robotic surgery, the VUI has begun expanding their robotic program for other treatments. Funding will be used for the continued development and research of minimally invasive surgery techniques and support other activities related to prostate cancer research.	620
VCORE Fund for Urology Research and Education	This fund will be dedicated to the development and expansion of the Vattikuti Urology Institute Center for Outcomes Research Analytics and evaluation (VCORE), a center of excellence committed to groundbreaking research and educational training. Funds shall be used to fund all items related to research and education under the VCORE program.	612
Visual Rehabilitation Center Fund	Supports education, research, equipment, seed money for pilot projects, new technology and educational tools.	247
Warden Chair in Multi-Cultural Health	This fund will support continuous support to the Institute on Multicultural Health for initiatives that serve underrepresented racial and ethnic populations through research, education and the delivery of culturally appropriate healthcare.	628

West Bloomfield Hospital Beautification Fund	By purchasing a stone paver, tree or bench at the Reflection Pond behind West Bloomfield Hospital, your donation will be supporting the ongoing costs for installation and maintenance of the property surrounding the hospital.	363
West Bloomfield Hospital Building Fund	Located in one of the fastest-growing areas of southeast Michigan, Henry Ford West Bloomfield Hospital shatters the paradigm of the modern hospital. A gift to HFWBH will help create an ultramodern facility that will touch hundreds of thousands of lives for decades.	360
West Bloomfield Hospital Chaplain's Fund	The Chaplain's Fund was set up to receive funds that would be used to support medical and humanitarian outreach to the medically underserved people of Greater Detroit and Henry Ford West Bloomfield's immediate service area. This fund also supports medical outreach and medical mission teams going to Nicaragua.	625
West Bloomfield Hospital Emergency Department	This fund will support the education and research projects for HF West Bloomfield's Emergency Department, including new equipment, seed money for pilot projects, new technology and educational tools.	362
West Bloomfield Hospital Joint Replacement Program Strategic Fund	This fund will provide a powerful source of discretionary support to address needs and maximize opportunities for the Joint Replacement Program at HFWBH. Funds can be used for staff development, research, patient medical needs, technology, programming and other needs deemed appropriate by the director of the program.	635
West Bloomfield Hospital Path to Wellness Fund	This fund supports the planning, design, construction and maintenance of walking and bicycle trails on the West Bloomfield campus.	364
West Bloomfield Hospital The Beverly and Robert N. Canvasser Compassion Endowed Fund	The Beverly and Robert N. Canvasser Compassion Endowed Fund Description: This fund shall be used to help Henry Ford West Bloomfield Hospital employees, volunteers and retirees (and potentially patients) who have experienced some type of catastrophe. The fund helps people at their most vulnerable of moments and provides a bridge for them to work through their unfortunate situation.	636

West Bloomfield Hospital Transitional Care Strategic Fund	Funds will be used to address the needs of high risk patients who require transitional care follow ups, and to provide the ongoing support and resources required to meet those needs. High risk patients are identified by the case management (per policy criteria). These patients have complex medical histories and are frequent fliers with low health literacy.	637
West Bloomfield Labor and Delivery Unit Teaching Care Endowment	This fund supports nursing education opportunities including, but not limited to, professional development, conferences, trainings, and certifications for nurses in the Labor and Delivery Unit of Henry Ford West Bloomfield Hospital. As an endowment, only the interest made off the corpus investment will be spent, allowing these opportunities to be supported in perpetuity.	634
West Bloomfield Ob/Gyn Fund	This fund will support the education and research projects for HF West Bloomfield's Ob/Gyn Department, including new equipment, seed money for pilot projects, new technology and educational tools.	365
Wigs for Chemo Patients Fund	The Wigs for Chemo Patients Fund supports a unique program that helps provide stylized wigs for patients who are undergoing chemotherapy.	638
Women-Inspired Neighborhood (WIN) Network.	Fund to support general operating expenses of WIN Network on an ongoing basis.	558
Women's Community Health Education and Research Fund	This fund is for the development of research and education and will be used to further said program in the department of Women's Health at all locations. The chairman will manage said fund and appropriate procedures will be established to allow for the requesting of funds for the development of individual programs/projects.	641
Wyandotte - Bob and Sandy Riney Helping Hands Fund	Helping Hands is a charitable initiative sponsored and funded entirely by employees and physicians to help co-workers, volunteers and retirees in times of need. Since its inception in 1992, the program has provided financial assistance to hundreds of people in need. It has achieved some amazing results including helping pay for food, clothing and shelter for families who have lost their homes to fire as well as helping those who are sick or injured to pay for medical care unavailable through other means. This fund supports the employees at Henry Ford Wyandotte Hospital.	378
Wyandotte Center for Emergency and Critical Care	The Center for Emergency and Critical Care at Henry Ford Medical Center - Brownstown Township has a mission of providing important life-saving care to our most critically ill patients. This fund will enable the Center to make major renovations to its facility, purchase the latest, most technologically advanced equipment, and support many of the numerous community outreach initiatives that are led by our physicians and staff.	373
Wyandotte Center for Health Services	This fund will support the education and research projects for HF Wyandotte's Center for Health Services, including new equipment, seed money for pilot projects, new technology and educational tools.	366
Wyandotte Center for Physical Rehab	This fund will raise funds for the Center for Rehabilitation to support ongoing projects that include the purchase of equipment and funding of new programs.	383
Wyandotte Clinic for the Working Uninsured	This fund supports the Clinic for the Working Uninsured which provides a variety of health care services to Downriver residents who are working but without medical insurance.	367
Wyandotte General Fund	Henry Ford Wyandotte Hospital building fund will support facility upgrades, such as cafeteria renovations, new fitness equipment in the employee wellness center, grounds beautification, as well as, special equipment purchases.	372
Wyandotte Hospital "I Promise" Fund	This program was established specifically for downriver patients with cancer. The program assists patients who lack the economic resources to cover their needs for wigs or other prosthetics due to Chemotherapy treatment for cancer. Patients who qualify for this program are eligible to receive up to a \$200 voucher for their special needs.	368
Wyandotte Hospital Center for Behavioral Health	This fund supports the education and research project for the department of Behavioral Health, including new equipment, seed money for pilot research projects and research tools.	379
Wyandotte Hospital Center for Cardiac Care	The Center for Cardiac Care bundles together all of the cardiac related programs and services, both inpatient and outpatient, offered at Henry Ford Wyandotte Hospital and Center for Health Services (CHS) at Henry Ford Cancer - Brownstown Township. The Center includes all of our programs and services centered on our cardiac patients, including cardiac catheterization, inpatient CCU, electrophysiology, vascular services, diagnostic testing, and cardiac and pulmonary rehabilitation.	376
Wyandotte Hospital Center for Surgery Fund	The Center for Surgery bundles together all of the surgical programs and services, both inpatient and outpatient, offered at Henry Ford Wyandotte Hospital and the Center for Health Services (CHS) at Henry Ford Medical Center - Brownstown Township. This fund will support the Center's ability to make major renovations to its surgical suites, purchase needed equipment not included in the capital budgets, and to help support new programs that will improve the quality of care for patients, and also improve the work environment for our physicians and nursing staff.	375
Wyandotte Hospital Medical Staff Fund	The medical staff of Henry Ford Wyandotte Hospital provides high quality and personal medical care to thousands of people who live and work in the surrounding area. Members of the medical staff have another unique opportunity to work with many nonprofit organizations and institutions - including Henry Ford Wyandotte Hospital - whose vision and mission are to serve area residents. This fund will help coordinate charitable donations from the medical staff of Henry Ford Wyandotte Hospital while helping meet the needs of the surrounding community.	371
Wyandotte Hospital Men's Health Fund	Education community outreach, support for medical costs for men's health concerns.	388
Wyandotte Hospital Nursing Development Fund	This fund will be used to support nursing specific programs, equipment, education and/or the greatest needs of HFWH nurses as identified by nursing leadership at HFWH.	369
Wyandotte Hospital Patient Medical Needs	At Henry Ford Wyandotte Hospital the Patient Medical Needs Fund was established for patients who need urgent help. It might be a prescription for an elderly patient's needs. Or it might be a piece of life-saving equipment for a young mother. Hundreds of low-income patients, including the elderly, young adults and underinsured receive prescriptions, equipment and other medical necessities through this program which they would otherwise not be able to afford.	370
Wyandotte Hospital Phyllis E. Edwards Nursing Scholarship Fund	Established in 2010, the Edwards Nursing Scholarship Fund seeks to honor the memory of Phyllis E. Edwards, a pediatric nurse manager who worked at Henry Ford Wyandotte Hospital for more than 30 years. The endowed fund, established in loving memory by her family, will award an annual scholarship to qualified women and men who are committed to pursuing a career in pediatric nursing.	377
Wyandotte Medical Education Fund	This fund will support Medical Education at Henry Ford Wyandotte Hospital.	653
Youth Medical Services at Ruth Ellis Center	Donations to this fund will support School-Based and Community Health Program services at the Ruth Ellis Center. Specifically, this fund shall be used to address the health needs of LGBT youth including health screening, education, treatment, equipment, medication and lab services not covered by insurance	608
